The Jacket Measurements which go up in Size correspond with the other measurements on the chart. For Off the Peg the size will decipher your waist, bust, back length and crown to cuff.

Measuring the Waist

Making sure you are in a relaxed position with your feet together, run the tape around the narrowest part of the body. Make sure that there is no ease in the tape and it is parallel to the floor.

Measuring the Hips

Put your feet together and measure around the fullest part of the hip with two fingers under the tape for ease. The tape must run smoothly up and down, neither too loose or tight.

Measuring the Bust

With your arms raised, run the tape around the fullest point of the bust. Make sure there is no ease in the tape measure and that it is parallel to the floor.

Measuring Back Length

This is the measurement from the bottom of the collar, down the back seam of the jacket to the desired length.

Measuring Crown to Cuff

Measure from the center of the cuff up to the top of the shoulder.
