Inside Leg	32	32	32	32	32	32	32	32	32

The Trouser Measurements which go up in Size correspond with the other measurements on the chart. For Off the Peg the size will decipher your waist, hips and back length.

Measuring the Waist

Making sure you are in a relaxed position with your feet together, place the tape around the waist where you wish to wear the trousers.

Measuring the Hips

Put your feet together and measure around the fullest part of the hip with two fingers under the tape for ease. The tape must run smoothly up and down, neither too loose or tight.

Measuring the Outside Leg

Find where you would like the waistband to sit and measure from this point down the outside leg to the correct length.

Measuring the Inside Leg

Hold the measuring tape high up into the crutch position then run the tape down the inside leg to the correct length.
